#### **SUMMARY SHEET**

## I. Description of Item

This item approves an amended sewer agreement with the Town of Collierville to provide sanitary sewer services to (102) lots in the Cotton Creek area.

## II. Source and Amount of Funding

A. Amount Expended/Budget Line Item

No County funds required.

### **III.** Contract Items

A. Type of Contract Sanitary sewer agreement
B. Terms See attached agreement

# IV. Additional Information Relevant to Approval of This Item

On September 22, 2008, the County Commission approved an agreement with the Town of Collierville for residents of the Cotton Creek Area to receive sanitary sewer services from the Town. The agreement was presented at the December 8, 2008 meeting of the Collierville Board of Mayor and Aldermen and was approved with the insertion of language that states that at least thirty (30) of the current ninety-two (92) property owners agree to become users and pay a one time development fee of \$3,000.00 and a one-time connection fee of \$225.00 to the Town prior to any wastewater treatment services being provided.

According to the Town of Collierville, if less than thirty homeowners are connected to the system when it assumes maintenance responsibilities, the Town could be expending sums for maintenance well in excess of the fees that would be collected.

Further, Town officials have required that the bid for construction contain an alternative for utilization of grinder pump stations instead of the proposed effluent pumps. They understand the lower priced of the two alternatives will be selected and result in contract award.
